QUARTERLY

The Bolted Beam

A carriage bolt secured wood plate

Using steel in your builds has many benefits. High durability, moisture resistance, pest resistance, fire resistance, and a long lifespan. Steel is significantly stronger and less prone to warping, twisting or rotting compared to wood. Steel's inability to absorb moisture makes it an excellent choice for building long-lasting and stable homes.

Kozel Steel's crane trucks are designed to make your construction projects more efficient and hassle-free. With a robust 40-foot reach, our crane trucks excel at handling and positioning structural steel with precision and ease, minimizing downtime and streamlining the beam-setting process.

At Kozel Steel, we prioritize reliability and safety, offering expertly maintained crane trucks operated by skilled professionals who understand the importance of getting the job done right the first time. Choose Kozel Steel for a seamless construction experience that keeps your project on track and within budget.

NR90AD(S)1M

\$189.00

3-1/2 Inch 30° Paper Collated Framing Nailer

3-1/2 Inch 30° Paper Collated Framing Nailer for flooring and framing, truss build-up, roof decking, wall sheathing and housing construction. The lightweight Paper Collated Framing Nailer weighs only 7.0 Lbs., making it easy to use all day, while still providing the power of bulkier, heavier nailers.

NR83AA5

\$249.00

3-1/4 Inch 30° Paper Collated Framing Nailer

This nailer is used for floor and wall framing, truss build-up, construction of sub-flooring and roof decking, wall sheathing and mobile home and modular home construction. The NR83AA5 is like the original NR83A framing nailer that you have come to trust, but now with an improved trigger design.

NV90GSM

\$279.00

3-1/2 Inch Coil Framing Nailer

This nailer drives wire collated nails up to 3-1/2" in length. The redesigned head guard allows for faster and easier disassembly during tool maintenance. Weighing only 7.7 lbs, it is easy to use all day. The convenient side-load, tilt bottom magazine allows for quick and easy fastener replenishment.

NV83A5

\$379.00

3-1/4 Inch Coil Framing Nailer

The 3-1/4 Inch Coil Framing Nailer is not only a tool for the pro it's also the tool that provides an answer to pro's needs. Used for construction work such as wall sheathing, roof decking, subflooring, mobile and modular home construction, making of wooden boxes, pallets and drums, etc.

NV65AH2M

\$359.00

2-1/2 Inch Coil Siding Nailer

The Metabo HPT siding nailer is capable of driving nails as large as 2-1/2" x .099" at a rate of 3 per second, the NV65AH2 is both powerful and efficient. With added features like a selective actuation switch, side-load tilt bottom magazine and repositioned depth of drive adjustment dial, this professional siding nailer gets even better.

NV45AB2M

\$269.00

1-3/4 Inch Coil Roofing Nailer

One of the best selling Coil Roofing nailers (NV45AB2), it is extremely lightweight, (only 5.5 Lb.) making it the essential tool for the fast-paced working environment. It features rapid driving and unprecedented quick response with a unique cylinder valve firing mechanism allowing you to fire up to 3 nails per second.

N5008AC2

\$239.00

16 Gauge 7/16 Inch Standard Crown Stapler

The Standard Crown Stapler is used for construction work such as wall sheathing, roof decking, subfloor installation, mobile and modular home construction and assembling wooden crates and pallets. The standard crown stapler fires 16 gauge 7/16 in. crown staples from 1 in. to 2 in. in length and features next generation industrial design, precision and durability.

NORTON clipper
SAINT-GOBAIN

Norton Clipper C914P Small Push Walk-Behind Saw - Gas

With extreme reliability, portability, and strong performance, the new full featured Norton Clipper C914P walk-behind saw is redefining the compact concrete saw class. The powerful Honda 9HP engine, 14" maximum blade capacity, and the strongest chassis in class make for the fastest and straightest cuts every time. Designed for easy transportation, simple operation, and low maintenance, the C914P is the right choice for contractors and rental. The C914P is equally at home cutting concrete, sidewalks, asphalt, or decorative concrete, making it the perfect saw for any job.

\$1850

Norton Clipper GC55 Small Push Walk-Behind Saw - Gas

With a compact, light-weight design backed by the reliable Honda 5HP gasoline engine, the GC55 early entry saw is intended for a variety of applications. From green, cured or decorative concrete cutting to expansion joints, the features of this small push saw are hard to beat in a single saw. The low, wide profile of the frame, along with the front mount blade, contribute to producing a more disciplined cut.

\$2400

Norton Clipper C1418P Small Push Walk-Behind Saw - Gas

The next generation of 14HP saws. The C1418P features shock-absorbing handle bars. The new sleek design of the water tank, with increased capacity and improved securing, adds an additional 6.5 gallons of water over the cut. And, a newly-designed belt tensioning system helps keep the saw cutting true. All these features, coupled with the 14HP Kohler engine, makes the C1418P the premier choice for rental and service work.
