MAX

PowerLite

The MAX USA PowerLite® System is a high-pressure pneumatic fastening solution operating at 500 PSI, offering significantly more power than standard 100 PSI tools. Its lightweight and compact design reduces user fatigue while delivering high-performance fastening into concrete, steel, and engineered wood. Why go high pressure? More performance with less bulk.

Air Compressor Compatible with 100psi and 500psi tools

## Carpenter Toolbelt Set.....**\$392**

The Carpenters set is a great all-around tool belt suitable for many trades and has enough versatility to serve you well throughout most phases of construction from framing to finish work. Our full sets are designed and built to increase your efficiency and keep you comfortable throughout your workday. Badger dominant side bags are made to hold common hand tools and other necessary items. Non-dominant bags have ample cargo space for fasteners, tape measures, assorted bars, chisels, speed squares and other common tools.

## Military grade tactical webbing & hardware

- Tool Side: 5 Tool slots in main pouch-three along inside back and two inside front, single outside lower pouch with tool slot, rear tool loop
- Fastener Side: 3 Elastic nail set slots in tape pouch, speed square slot, lower tool slot, side by side outside pouches, slots in each fastener pouch, reinforced bar slot on underside of the bag
- American made foam, various military-grade tactical webbings designed to be both lightweight and abrasion-resistant, plastic and metal military hardware and heavyweight military thread
- 1000 Denier CORDURA® Nylon fabric with water repellent coating
- As with all Badger bags, the bottom of the main and fastener pouches are reinforced with USA made tactical webbing to increase puncture and abrasion resistance
